PROFILE

I design and build responsive websites for individuals and small businesses. My work combines HTML, CSS, JavaScript, Bootstrap and Figma with a focus on clear navigation and accessible interfaces. I can help with portfolio sites, landing pages and improvements to existing websites.

CORE SKILLS

- Front-end: HTML5, CSS3, JavaScript, Bootstrap 5 and responsive layouts.
- Design: UI/UX, Figma, accessibility and user-centered thinking.
- Workflow: Git, GitHub, testing and collaboration.
- Additional tools: PHP, Node.js, MySQL and SQL Server.

EDUCATION

MSc in Information Systems

2019 - 2023

European University Cyprus

BSc in Computer Engineering and Informatics

2012 - 2017

Cyprus University of Technology

SELECTED PROJECTS

- Personal portfolio - responsive website showcasing web design and accessibility.
- e-Pals - degree project website.
- CoTrax - music website.
- Fasouri Waterpark - staff website.

BEYOND WORK

BC1 boccia athlete representing Cyprus at international World Boccia Challenger events. Competition strengthens my preparation, focus and ability to adapt.
